

30<sup>th</sup> August 2021

s9(2)(a)

[Redacted]

Dear s9(2)(a)

### **Official Information Act Request for – DHB Ward Capacity**

I write in response to your Official Information Act request received by us 20<sup>th</sup> July 2021, you requested the following information:

- 1. The total capacity of the emergency department (comparing the demand for beds at 7am to the number of beds available for patients) broken down by day from January 1, 2021 to July 19, 2021.**
- 2. The number of days the DHB was operating at 100 per cent capacity or more across its emergency, medical, surgical and older people's health (ARHOP) wards at 7am per day, during the following time periods:**
  - a. January 1, 2020 - December 31, 2020**  
**\* January 1, 2021 - July 19, 2021;**  
**stating how far over 100 per cent capacity each ward was on any given day.**
- 3. The highest capacity measured on any given day in the emergency, medical, surgical, and older people's health (ARHOP) wards at 7am between January 1, 2021 and July 19, 2021.**

### **Counties Manukau Health Response:**

For context Counties Manukau Health (CM Health) employs over 8,500 staff and provides health and support services to people living in the Counties Manukau region (approx. 601,490 people). We see over 118,000 people in our Emergency Department (ED) each year, and over 2,000 visitors come through Middlemore Hospital daily.

Our services are delivered via hospital, outpatient, ambulatory and community-based models of care. We provide national, regional and supra-regional specialist services i.e. for burns, orthopaedics, plastics, and spinal services. There are also several specialist services provided including tertiary surgical services, medical services, mental health and addiction services.

CM Health monitors in real-time the demand for hospital beds and capacity across the entire system, with a focus on maintaining availability and flow through the hospital. We manage staffing levels proactively to match clinical needs, safe skill mix and use of additional resources as required. It is important to note that there is variation from average occupancy rate on an hourly, daily and seasonal basis, and for different clinical areas (NB: not every empty bed is available for any incoming patient).

When discussing hospital occupancy, it is important to be aware that not every incoming patient fits the clinical criteria for admission to any vacant bed. Some patients will require special placement in an appropriate clinical area and some beds will only take patients with speciality conditions (therefore would not be available for any hospital inpatient admission). As mentioned above, we are a receiving hospital for many trauma specialties and it is important that we have beds available for these incoming patients.

The Emergency Department occupancy is measured differently than inpatient wards. This allows for the flexibility in the Emergency Department to deal with peaks of presentations throughout every 24-hour period.

**1. The total capacity of the emergency department (comparing the demand for beds at 7am to the number of beds available for patients) broken down by day from January 1, 2021 to July 19, 2021.**

We record occupancy every day at 0700 hours and presentations will increase and decrease throughout the day impacted by the number of patients admitted through the ED and discharged from hospital wards. Another factor is the turnaround time in ED which can also be affected by staffing, resources and acuity of patients or whether there are a number of traumas presenting at the same time or any community outbreak is or seasonal illnesses is being experienced.

Appendix 1 provides details of the occupancy of the Emergency Department at 0700 hours from the 1<sup>st</sup> January 2021 to 19<sup>th</sup> July 2021. An important factor to note is that high numbers of patients occupying the ED at 0700 can have a major impact on patient flow throughout the next twenty-four-hour period.

Table 1 below reflects an average per month of the daily volumes of people presenting to the ED across a 24-hour period. Please note, Covid-19 National Alert Levels were put in place on 25<sup>th</sup> March 2020 and again on the 17<sup>th</sup> August 2021 which has impacted on average volumes in those months.

<b>Emergency Department Average Presentations Per Day</b>				
<b>Month</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
January	327	313	302	316
February	326	316	309	307
March	327	327	273	297
April	312	317	199	308
May	312	336	244	313
June	323	337	281	351
July	340	328	286	334
August	351	323	262	315
September	326	313	263	-
October	312	310	302	-
November	314	309	322	-
December	309	308	333	-

Table 1: Data Sourced HII

2. The number of days the DHB was operating at 100 per cent capacity or more across its emergency, medical, surgical and older people's health (ARHOP) wards at 7am per day, during the following time periods:

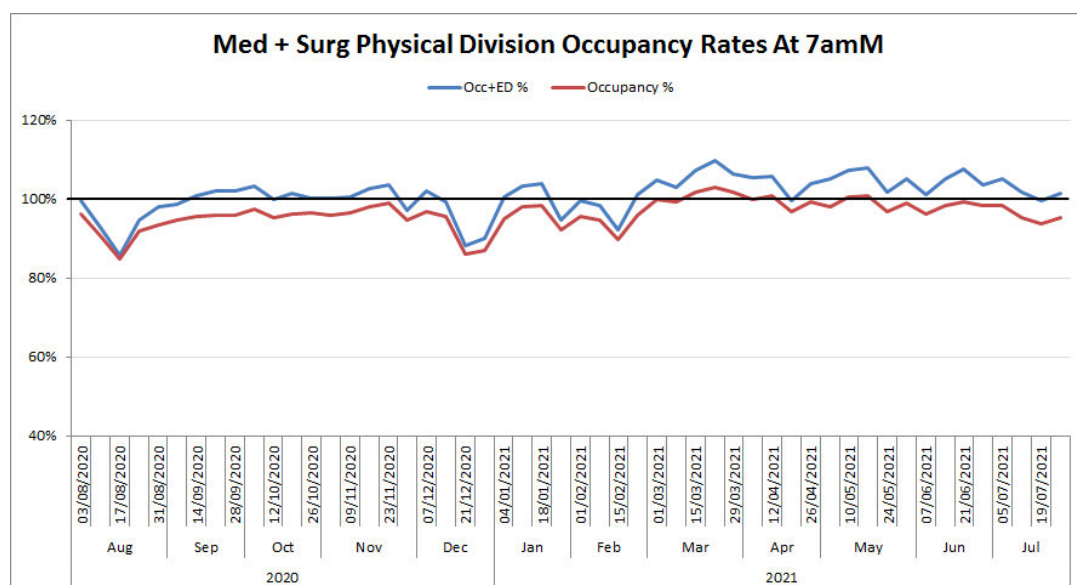

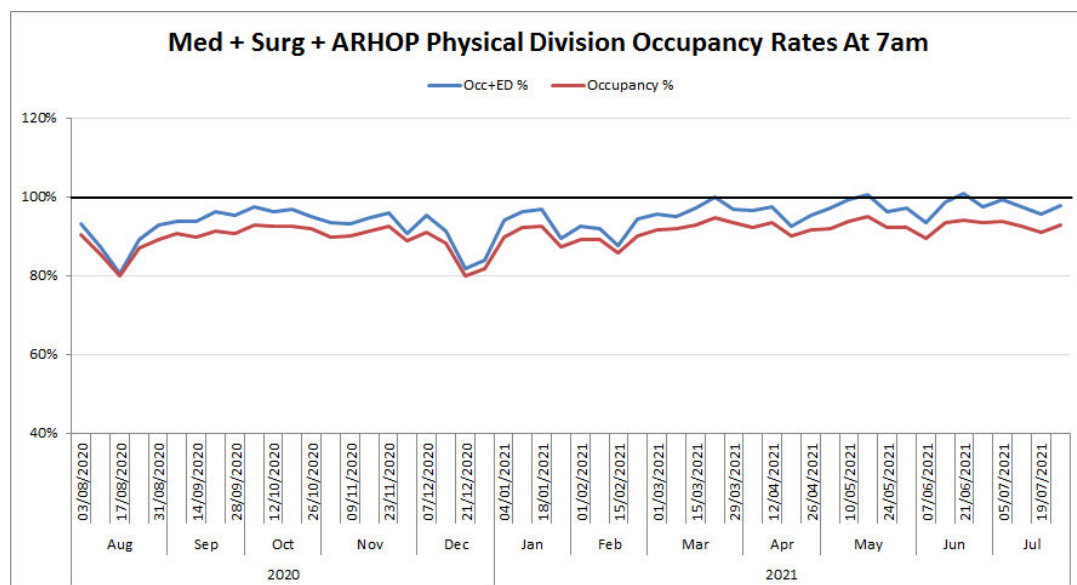

a. January 1, 2020 - December 31, 2020

b. January 1, 2021 - July 19, 2021;

stating how far over 100 per cent capacity each ward was on any given day.

The hospital occupancy data below reflects the number of patients under Medical, Surgical and ARHOP specialities (acute ward areas) in an inpatient bed at 0700 hours divided by the number of beds open in these areas at 0700 hours from 3<sup>rd</sup> August 2020 to 19<sup>th</sup> July 2021. We have also included the Emergency Department request rate at that time. We have provided the same graphs for Medical and Surgical divisions at 0700 hours for comparison. Again, as you will be aware Covid-19 National Alert levels were put in place from 25<sup>th</sup> March 2020 onwards.

Attached as Appendix 2 is a full breakdown at 0700 hours of individual ARHOP, Medical and Surgical Divisions occupancy (patients in beds), number of ED bed requests, occupancy and beds required, physical beds available, and the occupancy percentage from the 1<sup>st</sup> January 2021 to the 19<sup>th</sup> July 2021.

**3. The highest capacity measured on any given day in the emergency, medical, surgical, and older people's health (ARHOP) wards at 7am between January 1, 2021 and July 19, 2021.**

The highest capacity measured in wards would be 100% capacity as we cannot place patients into wards that have 100% occupancy.

I trust this information answers your request. You are entitled to seek a review of the response by the Ombudsman under section 28(3) of the Official Information Act. Information about how to make a complaint is available at [www.ombudsman.parliament.nz](http://www.ombudsman.parliament.nz) or Freephone 0800 802 602.

Please note that this response or an edited version of this may be published on the Counties Manukau Health website. If you consider there are good reasons why this response should not be made publicly available, we will be happy to consider this.

Yours sincerely

**Dr Peter Watson**  
**Acting Chief Executive Officer**  
**Counties Manukau Health**

## Appendix 1
